

INNOVATION IN ACCESS

RESPECTED,
RESPONSIVE,
RELIABLE

Since 1971, Ricon Corporation has been a worldwide leader in mobility enhancement. The first domestic company of its kind to achieve an ISO 9001:2000 certification, Ricon designs, manufactures and installs wheelchair lifts and ramps for personal, commercial, school, paratransit, transit, motor coach and passenger rail vehicles. In addition to these products, Ricon is rapidly becoming a competitive supplier of pneumatic door systems and "anti-graffiti" transit windows in response to the growing demands of the industry.

Looking to the future, Ricon is focused on strategic partnerships developed by joint ventures and acquisitions that will strengthen our position in the global transportation industry.

S-SERIES

Ricon designs and manufactures a complete line of accessibility products for the passenger transportation industry.

FOLD-OVER

GLOBAL STRENGTH, LOCAL SERVICE

A global network of independent Ricon dealers support our products in more than 30 countries worldwide. Our technical support includes both in-house and field technicians. Our dedicated spare parts warehouse ensures quick and accurate delivery.

For nearly 36 years, Ricon has been a leader in the industry by providing products that meet customers' needs. For safety, quality, affordability and ease of use, you won't find a better total accessibility solutions provider.

For more information and specific product descriptions, contact Ricon today by phone, E-Mail or at www.RiconCorp.com.

For safety, quality, affordability and ease of use, you won't find a better total accessibility solutions provider than Ricon.

Operating from a modern, 225,000 square foot facility located near Los Angeles, Ricon is the largest manufacturer of its kind in the world.

INNOVATION IN ACCESS

MANUFACTURED IN THE U.S.A.

INNOVATIVE ACCESS PRODUCTS

Ricon's products cover a wide range of applications from lifts and ramps for commercial buses and trains to personal vans. Our pneumatic door systems and patented "3-Minute" anti-graffiti windows can be specified at OE or easily adapted to existing vehicles, making it simple and affordable to update fleets. The company's bus ramps can be replaced in less than an hour, saving customers time and money. When Ricon makes it, safety and quality are expected – and Ricon delivers.

Ricon products are available for "DOT PUBLIC OR PRIVATE USE" vehicles and are compliant with all FMVSS, ADA and many international regulations.

MIRAGE

TRANSIT, RAIL AND MOTORCOACH EASY-ACCESS LIFTS AND RAMPS

All lifts raise, lower and deploy quietly and at the touch of a button for efficient passenger movement that helps keep today's metro systems on schedule. Ricon offers several strong and sturdy yet lightweight and compact models. Ricon also offers an extensive menu of easy-to-maintain ramps and bridgeplates for low-floor vehicles. From transit buses and commuter rail to bus rapid transit, Ricon offers the most extensive line of ramps for both new and retrofit projects in the industry. Our flexible product line includes the BiFold™ – a double-folding ramp, the FOLDOver™ – a one-piece ramp, the EXPRESSRamp and the SLIDEout. All models are ADA compliant, featuring modular design, stainless steel construction and a limited warranty.

BI-FOLD

FOLDOVER

EXPRESSRAMP

All of Ricon's transit ramps deploy and stow quickly to keep today's metro systems on schedule.

Specifying complete OE door systems or upgrading current actuator assemblies is simple with affordably priced and intelligently designed products.

DOOR ACTUATORS

COMMERCIAL AND SCHOOL BUS PRODUCTS PUT SAFETY FIRST

Ricon's high-quality, reliable and innovative commercial products have set the industry standard for wheelchair lifts for nearly 36 years.

The unique, FMVSS-compliant KlearVue™ wheelchair lift provides an unobstructed view from within the vehicle. Outside, the KlearVue™ is virtually unseen because of the unique folding platform design. Drivers of commercial/paratransit vehicles appreciate fewer "blind spots," and passengers enjoy an unobstructed view.

S-SERIES

The one-piece platform, affordably priced, S-Series® like the KlearVue™ includes a 5-year limited warranty, a patented interlocked occupant restraint belt, and Ricon's patented Sto-Loc® system which prevents platform drifting and assures a quieter ride.

Ricon sets the industry standard for safe, innovative and reliable commercial products with our KlearVue™ and S-Series® wheelchair lifts.

COST-SAVING TRANSIT BUS WINDOW PRODUCTS

Graffiti vandalism costs public transportation agencies millions of dollars and thousands of man-hours each year. Agencies are forced to replace thousands of windows each year due to tagging.

Ricon's cost-effective Glass Guard™ and "3-Minute" Window products counteract graffiti. These patented window products feature an exclusive quick-change glazing system and replaceable liner making it easy to maintain a clean look throughout the fleet. There is even a model available with the look of a sleek bonded "Euro" design.

3-MINUTE WINDOW

Ricon's patented "anti-graffiti" Glass Guard™ and "3-Minute" Window products install quickly, saving time and labor costs.

GLASS GUARD

CLEARWAY

ADVANCED PERSONAL MOBILITY PRODUCTS

Ricon's personal mobility products offer many customer-requested features, from easy-stow, space-saving and visibility enhancements to lightweight construction. The 6-way Power Transfer Seat™ makes transfers from wheelchair to the driver or passenger seat convenient and easy. Power door operators and wireless remotes round out the product line. Customer safety is always Ricon's first priority in product design.

All personal mobility products feature quiet, smooth operation and are known for reliability. All our S and K series lifts offer the patented Sto-Loc™ feature that assures a quiet interior ride by securely locking the platform in the stowed position. The Clearway™ model's exclusive folding platform gives you access through the door when the lift is stowed. At 160 lbs. Uni-Lite™ is the lightest lift on the market today.

Ricon's personal mobility products feature safe, quiet and smooth operation that will last for years.
